

Montessori Academy at Sharon Spring
Cumming, GA
Ground Up

CA3 Construction completed the first phase of this private Montessori learning center in the summer of 2006. The project is located in the rapidly developing commercial sector of south Forsyth County.

The school exceeded first-year projections in revenue and enrollment. Because of those factors, CA3 was asked to return during the summer of 2007 when we completed a 3,000 square foot classroom addition to provide room for continued growth, bringing the building total to 9,800 square feet.
